

# June 8th is National Dump the Pump Day!

**Need a Reason to Join Us  
in Saying “No” to High  
Gas Prices?**

- Since January 2003, gas prices have increased by 100 percent.
- By using public transportation to commute to work, a person can save between \$300 and \$3,000 in fuel costs per year.
- Transit use saves more than 855 million gallons of gasoline every year.
- If Americans used public transportation for roughly ten percent of daily travel needs, the United States would reduce its dependence on imported oil from the Persian Gulf by more than 40 percent.
- By getting rid of a car, and using transit instead to commute to work, a person would save between \$3,300 and \$11,100 annually.

# ***Tell Us How You Have Dumped The Pump***

**Whether you have ridden RRTA for several years or just started, RRTA wants to know the benefits you have experienced by riding public transit.**

**Feel free to email us at [rrta@redrosetransit.com](mailto:rrta@redrosetransit.com) or send in your letters to “Dump The Pump, 45 Erick Road, Lancaster, PA 17601**

***Entries will be placed in a drawing for RRTA prizes!***

**Join the American Public Transportation Association in celebrating National Dump the Pump Day on June 8, 2006.**

**The day is dedicated to raising awareness that public transit is the quickest way to beat high gas prices.**

**On June 8, transit agencies from coast to coast will join together nationwide to ask the public to park their cars and ride transit instead.**
